

Software License and Maintenance Agreement

This Software License and Maintenance Agreement (the "Agreement") is a legally binding contract between you (the "Licensee") and RSM McGladrey, Inc., a Delaware corporation ("RSMI"). This Agreement governs Licensee's use of the Customer Service Alerts module for iMIS® (the "Software"). This Agreement does not grant you any right or license to use the iMIS software produced by Advanced Solutions International, Inc. You represent that if you are an individual accepting this license agreement on behalf of a corporation, sole proprietorship or other entity, that you have authority to accept this license on behalf of such entity. RSMI is willing to provide Licensee with access to the Software only on the condition that Licensee accepts all of the terms and conditions contained in this Agreement. Licensee's use of the Software will constitute Licensee's acceptance of, and agreement to be bound by, all the terms and conditions of this Agreement. IF LICENSEE DOES NOT AGREE TO ALL OF THE TERMS AND CONDITIONS IN THIS AGREEMENT, LICENSEE MUST IMMEDIATELY RETURN THE SOFTWARE AND ALL ASSOCIATED DOCUMENTATION AND PACKAGING, IF ANY, FOR A FULL REFUND.

1. License and Permitted Use. RSMI grants to Licensee a limited, non-exclusive, non-transferable right to install and use the Software solely for Licensee's internal business purposes. This license grants access to and use of the Software only in the manner set forth in this Agreement provided, and on the condition, that Licensee: (1) is a valid licensee of iMIS version 4.41 or higher, including licensing for the iMIS Xtender runtime or development kit; (2) installs the software only on computers which are used for connecting to their live iMIS database, (3) uses the software on a single computer per license and at no time has more concurrent users than allowed by their license; and (4) uses the Software for Licensee's own internal business purposes. Licensee may copy the Software for backup and archival purposes; provided, however, that the original and each copy is kept in Licensee's possession or control, and that Licensee's installation and use of the Software does not exceed that which is allowed in this Section.

2. License Restrictions. Licensee may not: (i) distribute, give, rent, loan, or resell a copy of the Software to any other person; (ii) make the Software available on a file-sharing service; or (iii) duplicate the Software by any other means, including electronically, except for a backup copy described in section 1 above. Title to the Software and all associated intellectual property rights are retained by RSMI. Through Licensee's use of the Software, Licensee acquires no ownership interest in the Software or any component of the Software. Unless enforcement is prohibited by applicable law, Licensee may not reproduce the Software (including any documentation for the Software), or modify, decompile, disassemble, or otherwise reverse engineer the Software, except as expressly permitted in this Agreement. No right, title or interest in or to any trademark, service mark, logo or trade name of RSMI or its licensors is granted to Licensee under this Agreement. RSMI is the owner of the copyright for the Software and RSMI reserves all rights related to such ownership, including the right to duplicate and sell the Software.

3. Maintenance. The license fee shall include one year of Maintenance at no additional charge. Each year thereafter, Licensee may elect to purchase maintenance for the Software and the annual maintenance fee shall be twenty percent (20%) of the license fee, or such other amount as may be designated by RSMI in writing to Licensee at least 30 days prior to the end of the then current annual maintenance term. The annual

maintenance fee shall be due and payable in advance. As used in this Agreement, "Maintenance" shall include: (i) reasonable assistance and consultation via telephone or electronic mail to assist Licensee in resolving problems with the use of the Software, including the verification, diagnosis and correction of material errors and defects in the then current release of the Software and (ii) new releases and updates (but not upgrades) to the then current release of the Software and related documentation that RSMI makes generally available to its other customers receiving Maintenance services. Maintenance explicitly excludes assistance creating, modifying or debugging the individual notifications (Alerts) used by the software. For purposes of this Agreement, the term "upgrade" means (a) any module of Software which offers discrete new functionality in addition to the module originally licensed by Licensee or (b) new software products released by RSMI which may provide functionality comparable to those originally licensed by Licensee but are thereafter marketed as separate and discrete products by RSMI. RSMI shall only be obligated to provide Maintenance for the then current release of the Software and the immediately preceding release. However, RSMI has no obligation to provide Maintenance for an immediately preceding release for more than six (6) months. RSMI warrants that the Maintenance will be performed in accordance with generally accepted industry standards. As Licensee's sole and exclusive remedy for a violation by RSMI of this warranty, RSMI shall refund to Licensee the entire annual maintenance fee paid by Licensee for the annual maintenance period during which the claim arose.

4. Termination. This license will automatically terminate upon the termination or expiration of Licensee's license to the iMIS software produced by Advanced Solutions International, Inc. In addition, RSMI may terminate this Agreement and license upon notice to Licensee if Licensee materially violates RSMI's intellectual property rights in or to the Software, including any provision of Section 2 of this Agreement. Upon termination of this Agreement or license, Licensee shall purge all copies of the Software from Licensee's systems and destroy all physical copies of the Software. The provisions of Sections 2, 6, 7 and 8 shall survive any expiration or termination of this Agreement.

5. Limited Software Warranty. RSMI warrants that for ninety (90) days from the date Licensee receives the Software (the "Warranty Period"): (i) the Software will substantially conform to the written documentation provided by RSMI with that Software; and (ii) the digital or electronic media upon which the Software and/or documentation are distributed are free from defects in materials and workmanship. RSMI shall not be liable for the iMIS software or other third party software or hardware used by Licensee to operate the Software. RSMI does not warrant that (i) the Software and/or the documentation are or will be free of bugs or errors; (ii) the use of the Software will be uninterrupted or error free; (iii) the Software or the documentation will meet Licensee's needs, (iv) the Software will operate in the hardware or system combinations which may be selected by Licensee, or (v) the Software will continue to operate with future versions of the iMIS software. Any claim for breach of warranty shall be made within the applicable Warranty Period for that Software by providing written notice thereof to RSMI together with a detailed explanation of the purported error.

Licensee's exclusive remedies for breach of these Software warranties shall be the repair or replacement of the Software or defective media or, if repair or replacement of the Software, or media is not possible or feasible within a reasonable period of time following RSMI's receipt of written notice, RSMI may, at RSMI's sole discretion, terminate this license and refund to Licensee the entire license fee for the Software. In

such case, Licensee shall purge all copies of the Software from its computer systems, destroy any physical copies of the Software, and provide written certification of the same to RSMI.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, RSMI DISCLAIMS ALL WARRANTIES, WHETHER EXPRESS, IMPLIED OR STATUTORY, OTHER THAN THOSE IDENTIFIED EXPRESSLY IN THIS AGREEMENT, INCLUDING BUT NOT LIMITED TO WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO THE SOFTWARE, DOCUMENTATION, MAINTAINANCE AND RELATED MATERIALS AND SERVICES.

6. Limitations on Liability and Damages. Regardless of whether any claim by Licensee is based on breach of contract, tort (including negligence), strict liability, breach of warranty or any other legal theory, the liability of RSMI will be limited, to the maximum extent permitted by applicable law, to direct damages up to the amount Licensee paid for the Software license.

To the maximum extent permitted by applicable law, neither party nor any of their affiliates or suppliers will be liable for any indirect damages (including, without limitation, consequential, special or incidental damages, damages for loss of profits or revenues, business interruption, or loss of business information) arising in connection with the Software or any related service, even if advised of the possibility of such damages or if such possibility was reasonably foreseeable. This exclusion of liability does not apply to either party's liability to the other for violation of the other party's intellectual property rights. The parties agree that the essential purposes of this Agreement can be fulfilled even excluding such damages.

7. Indemnification. RSMI will indemnify and hold harmless Licensee from and against any and all claims, liabilities, suits, damage, proceedings, or other actions arising out of or relating to the infringement of any U.S. patent or copyright in connection by the Software; provided that RSMI is given prompt notice of any such claim and sole control of the defense of such claim, including negotiations, appeals, and settlements. Licensee agrees to provide reasonable information and assistance to RSMI in defending any claim. RSMI's obligations under this Section shall not apply to any claim resulting from Licensee's modification of the Software, use of the Software in a manner not intended by RSMI or the combination of the Software with other software or components not provided by RSMI.

If the Software is held to infringe, or in RSMI's opinion the Software is likely to be held to infringe, any U.S. patent or copyright of a third party, RSMI may at its discretion and expense, (i) secure the right for Licensee to continue use of the Software, (ii) replace or modify the Software to make it non-infringing, provided the Software contains substantially similar functionality, or (iii) terminate this Agreement and the licenses granted hereunder. If RSMI elects to terminate this Agreement under the foregoing provision, it shall refund to Licensee the license fee paid by Licensee for the Software without further obligation or liability to Licensee, other than RSMI's continuing indemnification obligations hereunder.

8. Other Agreements. (A) Governing Law; Forum. This Agreement shall be governed by the laws of the State of Missouri, without regard to conflicts of law provisions. The parties agree that the exclusive jurisdiction of any dispute arising out of,

or relating to, this Agreement or any dispute arising out of, or relating to, the Software or services provided in connection therewith shall be in the courts located in the county of Jackson, State of Missouri.

(B) Entire Agreement. This Agreement is the entire and exclusive agreement between the parties with respect to the subject matter hereof, and it supersedes all previous communications, representations or agreements, either oral or written, between them. No representations or statements of any kind made by any representative of RSMI or its affiliates or subsidiaries, which are not included in this agreement, shall be binding on RSMI.

(C) Amendments. No party may modify or amend this Agreement except by a writing signed by Licensee and authorized representative of RSMI.

(D) Waiver. No waiver of any provision or condition herein shall be valid unless in writing and signed by Licensee and an authorized representative of RSMI. RSMI's failure to insist upon or enforce strict performance of any provision of this Agreement or any right shall not be construed as a waiver of any such provision or right.

(E) Severability. If any provision of this Agreement is determined to be illegal or unenforceable, such provision shall be automatically reformed, modified or deleted so as to make the resulting agreement valid, operative and enforceable to the maximum extent permitted by law or equity while preserving, to the fullest extent possible, its original intent. The invalidity of any part of this Agreement shall not render invalid the remainder of this Agreement.

(F) Miscellaneous. This Agreement shall inure to the benefit of RSMI and its respective affiliates, subsidiaries and successors and assigns. Any and all references in this Agreement to RSMI, its affiliates and subsidiaries shall, where the context so permits, include RSMI's parent companies, and their respective subsidiaries, affiliates, directors, officers, employees, contractors and agents. The headings contained herein are for the convenience of the parties only and shall not be used to interpret or construe any of the terms of this Agreement.
